REPORT OF THE SUPERINTENDENT OF SCHOOLS

To the School Board of Chester:

I submit my report for the school year 1927-28.

Teachers

There was no change in the teaching force this year. I believe that, under present educational conditions, we should insist on employing trained teachers for our schools. If to the technical training, successful experience can be added, we have more nearly ideal teachers. Even if the cost in the matter of salaries is somewhat higher. I am sure that the final results in well-taught pupils will justify it.

Health Supervision

For several reasons, the work along this line has not been entirely successful. The main reason was the necessity of changing nurses. It is to be hoped that, during the year 1928-29, the work can well be carried on. This sort of work is one of the most valuable services that the school can render to pupils and the community. Under reorganized conditions I am sure that the work will go on properly and that the schools will greatly profit by it. To be most successful, such work needs the hearty indorsement and cooperative support of all who have charge of our children.

Graduates

It is worth noting that so many of our graduates seek higher opportunities for education. It is worth our while to encourage—even urge—the boys and girls to take up not only high school work but even training technical and professional schools, for which the former is only a preparatory training.

Your Superintendent appreciates the cordial support of the Board.

Respectfully,

FRANK C. THOMPSON,
Superintendent of Schools.
